

## Xternal TOPICAL SOAK

### About

Use Xternal's Cannabis-infused Epsom Salt SOAK to relieve all-over body pain, lift the spirits, or simply relax and luxuriate in a special blend of essential oils, Cannabinoids (CBDs) and Epsom Salt. Xternal SOAK is formulated to provide a high local concentration of Cannabinoids for targeted relief. Replace aches and inflammation with a sense of well-being. Savored by athletes and grandparents alike!

Epsom Salt (magnesium sulfate) has been used for centuries for healing. The synergistic effect of Cannabinoids and essential oils maximizes their soothing, anti-inflammatory properties within the body while Eucalyptus oil can help with sinus and respiratory problems like bronchitis, asthma and COPD. Known as the world's oldest medicine, Peppermint Oil also helps relieve respiratory problems, as well as headaches and nausea. It has anti-fungal properties, boosts the immune system and nourishes dull skin. As aromatherapy, it refreshes the senses and stimulates mental activity. Inhale deeply as steam rises from infused bath to enhance the healing effects.
